

50/50 Top Soil Product Specifications

Product Description

- Top Soil composition is a blend of two materials, at a ratio of 50 percent sand and 50 percent compost.

Benefits of Usage

- Great for fill areas and fields, also for back fill prior to large palm planting.
- Enriches the soil adding nutrients and creating ideal drainage.

Application

- Top soil should be spread evenly on level areas at a 1-3” depth to achieve best results.
- The amount is dependent upon the depth specification or recommendation.
